General Info:

The best time to hunt is during the cooler winter months from April to October, however we happily accommodate hunts throughout the year (area dependant).

Tsala Safaris have access to pristine hunting areas in South Africa, Zimbabwe, Cameroon, Congo and Mozambique. With over 15 years of experience in the hunting industry, we are confident we can make your dreams and visions a reality.

Temperatures are mild, although early mornings and nights can get cool. Warmer jackets, coveralls and comfortable shoes, whether it's sneakers or hiking boots are recommended. Keeping in mind that hunting attire should be comfortable.

The animal you intend to hunt, determines the rifle caliber needed. For smaller game like Impala or Springbuck, a .270 or 7mm rifle is needed. For bigger game like Kudu or Gemsbuck a .30 caliber is adequate. As per law the minimum caliber required to hunt Elephant, Buffalo or Lion is a .375.

Every safari is planned individually with the hunters needs in mind. An ethical hunt and fair chase is important to us. We also accommodate fishing and photographic safaris.

Observers are welcome, as there are a variety of activities to keep them entertained while you track towards the trophy you have always dreamt of.

Please remember to consult your doctor before embarking on your trip.
